

## **CHEMICAL/POLYMER ENGINEERING**

Northern Cables is currently recruiting for a Chemical/Polymer Engineer for our Eastern Ontario based company. The position will involve working in the area of production and processing of polymer plastics used in the wire and cable industry.

The ideal candidate will have:

- An Engineering Degree from an Accredited University
- Familiarity with basic manufacturing principles such as productivity and quality standards, scrap reduction, delivery performance and material usage
- Familiarity with the extrusion process related to PVC and Polyethylene plastics
- Excellent communication skills, both written and verbal
- Flexibility in scheduled work hours
- The ability to train and coach employees
- An exemplary work ethic, attitude and attendance history
- A willingness to actively participate in Health and Safety activities

**Interested candidates are invited to submit resumes to:**
