

ELECTRICAL ENGINEERING

Northern Cables is currently recruiting for Electrical Engineering resources for our Eastern Ontario based company. The position will be responsible for working with equipment used for production and processing of nonferrous metals and polymers used in the wire and cable industry.

The ideal candidate will have:

- An Engineering Degree from an Accredited University
- Familiarity with basic manufacturing principles such as productivity and quality standards, scrap reduction, delivery performance and material usage
- A minimum of 5 year's experience working with industrial control systems, equipment commissioning, capital installations and upgrades.
- Excellent communication skills, both written and verbal
- Flexibility in scheduled work hours
- The ability to train and coach employees
- An exemplary work ethic, attitude and attendance history
- A willingness to actively participate in Health and Safety activities

Interested candidates are invited to submit resumes to:

**Northern Cables Inc.
P.O. Box 1564 - 50 California Avenue
Brockville, Ontario - K6V 6E6
