Security Vision & Responsibility Statement

Customs Trade Partnership Against Terrorism

As the manufacturer of high-quality armored cable and a proud member of the U.S. Customs and Border Protection (CBP) CTPAT program, supply chain security continues to be an integral part of the company's culture and business processes.

From its inception in 2001, CTPAT remains a voluntary public-private sector partnership program where members work with CBP to strengthen their international supply chains and ultimately improve border security, protecting the supply chain from criminal activities such as drug trafficking, terrorism, human smuggling, and illegal contraband.

Northern Cables Inc. has developed, and maintains, a multi-layered security program that is consistent with the CTPAT minimum-security criteria (MSC) and remains committed to protecting our organization and supply chain from any illegal or illicit activities.

Security is everyone's responsibility. All employees and business partners, including contractors, service providers, and visitors are educated and must comply with the company's CTPAT policies and procedures that are in place at each facility.

Northern Cables has also committed to our national supply chain initiative Bill S-211 Supply Chains Act and our report is available on the designated Government of Canada website.

A handwritten signature in blue ink, appearing to read "Todd Stafford", is written over a light blue rectangular background.
