Cable Guide

getwired®

**Copper Building Wire (solid & stranded) **

MC THHN

MC THHN  
Isolated Ground

MC THHN  
Oversized Neutral

MC THHN  
High Volt Colors

MC ABG  
Aluminum Bare Ground

MC THHN  
Multi Conductor  
(up to 50 conductors)

MC PCS  
Lighting and Control

MC THHN  
PVC Jacketed

**BX Cable **

ACTHH

**Health Care Facility **

HCF GLO WRAP® (UL4)

MC ABG HCF GLO WRAP® (UL1569)  
HCF Aluminum Bare Ground

**Power Limited Fire Alarm **

FPL, FPLP GLO WRAP®  
Fire Alarm

**ACIC Armored Control & Instrumentation **

ACIC Armored Control Cable

**MC-WC70 **

MC AIA XHHW-2 Copper

MC AIA XHHW-2 Aluminum

**Large Copper Conductors** 

MC THHN/THWN

MC XHHW-2

**Large Aluminum Conductors** 

MC THHN

MC XHHW-2

**Industrial TECK90 Aluminum & Steel** 

TECK90 Small

TECK90 Multiconductor  
(up to 50 conductors)

TECK90 Large

TECK90 Composite

TECK90 Vertical

TECK90 Single Conductor

TECK90 Single Conductor  
Aluminum

TECK90 Aluminum

TECK90 VFD

## *UL Type Cables.*

UL is an independent product safety certification organization who prepare standards which are intended to be compatible with the installation requirements of the National Electrical Code (NEC). After fulfilling all applicable requirements UL has authorized Northern Cables Inc. to apply a certification mark to approved products. UL performs Follow-up Service in which periodic audits are completed by UL Field Representatives.

## *Custom Armoring & Jacketing.*

Northern Cables Inc. provides custom interlocked armor services on other manufactured cores supplied by the customer. The most common materials for armor are aluminum or galvanized steel. Choice of material thickness and grade can vary depending on the physical properties required by the end user. Other materials are available upon request. In addition Northern Cables can provide custom jacketing services on supplied cores including armored cables. These jackets are available in a range of colors with custom printing. Length Marking in meters and feet is also available. PVC jackets are resistant to water and sunlight, meet FT4, have low acid gas, are rated to minus 40C, and are available in a variety of colors. Other thermoplastics are available on request.
